WebClock

Since 1998 ITCS has been providing time and attendance solutions. The ITCS-WebClock is in use at 1000's of locations and is noted for being "Simple and Easy to Use and Very User Friendly". The ITCS-WebClock is more than just online employee time and attendance software. It easily integrates with payroll and financial systems & stream lines your payroll operation.

We are a leading international workforce management solutions provider based in the United States. Powerful, yet "Simple and Easy to Use", our web based time and attendance software streamlines your workforce management and payroll processing activities. Track time through the Web Based Time Clock, Biometric and Badge Devices, PDA & Smartphones and Telephone time clocks. Using Cloud and High Availability technology your data is secure, protected and always available.

Sam
Real Estate, 1-10 employees

ITCS-WebClock does excel on software design, accessibility, interaction, functionality, data base accuracy, well designed broad reporting, and above all by the Top Quality of their Team Customer Excellence! If you are in the market for a Time Control Software, do not look further, as WebClock will be right there for you!

Hogan
Insurance, 201-500 employees

The software is easy to use and it's easy for new employees to pick up. Your support team is great, very knowledgeable, responsive and a pleasure to deal with. My implementation specialist for our recent report requests was also very responsive and a pleasure to deal with.

Ann
Medical Transcription, 4000 employees

I first began using the ITCS-WebClock for a medical transcription payroll that consisted of 1,200 employees and has now swelled to over 4,000 employees with huge success. In fact, it has been such a positive experience that we have rolled out Webclock to our German payroll for tracking their flex time and vacation time, which includes calculating their scheduled hours vs. worked hours. I can tell you the folks in Germany are a very tough group and their Works Councils are much like unions, which we have had to accommodate. We have succeeded and are now moving on to Switzerland."

" Our goal, provide the highest level of customer satisfaction.
